# Mazak details latest expansion project

Aug. 2, 2013 2:43 PM | Comments

Written by **Mark Hansel**

Mazak has provided details of the latest expansion project at its facility in Florence.

## FILED UNDER

News  
Northern Kentucky News

The two-bay, 91,000-square-foot expansion of Mazak's manufacturing facility will increase the plant size by more than 20 percent.

The Paul Hemmer Company began preparation and excavation work on the project last month.

Hemmer is wrapping up construction of a 7,750-square-foot office renovation project for Mazak. The company is currently moving into those offices in the South Building on the Florence campus.

Mazak employs about 750 at its Florence campus and its footprint will cover 800,000 square feet when current expansions are completed. The campus is located at the intersection of Industrial Road and Foundation Drive.

Mazak has a Florence mailing address, but some of its larger structures are within the Elsmere city limits.

The overall expansion signifies a \$30 million investment by Mazak, a leading machine tool maker, in its national operations in Northern Kentucky.

The expansion of the manufacturing facility is scheduled to be completed by the end of the year.
